EDUCATION

Chinese Business

Kasetsart University
2020 – 2024

SOFT SKILLS

- ◆ Team collaboration
- ◆ Problem solving
- ◆ Stakeholder comm.
- ◆ Project management

Frontend-focused Full Stack Developer experienced in building responsive, user-friendly web apps using **React**, **Next.js**, and **Tailwind CSS**. Understands UI/UX principles, applies SEO fundamentals, and works across full CRUD systems with Node.js and REST APIs. Experienced with AI integration via Gemini API. Trilingual: Thai · English · Mandarin.

WORK EXPERIENCE

People Solution Specialist

Dec 2024 – May 2025

Humanica Public Company

- Gathered and translated business requirements into system configs — bridging design/dev and business teams
- Coordinated with stakeholders to streamline payroll workflows and reduce manual steps
- Maintained 100% payroll accuracy across multiple clients

PROJECTS

PERSONAL PROJECT

BigBode — AI Tarot Reading Platform

- Designed and built a responsive web app with **React**, focusing on clean UI across desktop and mobile
- Applied UI/UX principles: consistent card layouts, readable typography, and intuitive navigation
- Integrated Google Gemini SDK for AI-generated readings; managed SEO-friendly URL and page structure
- Handled user authentication and session management with MySQL + Prisma ORM

GROUP PROJECT · TEAM OF 5

4B1K — Community Concert Platform

Project Manager

- Led 5-person team to ship a concert tracking + community forum platform
- Built responsive UI with React ensuring desktop and mobile compatibility
- Managed Git workflow, code reviews, and bug fixes across team branches
- Developed core features: artist profiles and forums using Node.js and MySQL

WHY THIS ROLE

- Proficient in React and Next.js — directly matching the preferred frameworks listed
- Shipped responsive, mobile-friendly interfaces using Tailwind CSS and Framer Motion
- Comfortable with Git / version control and team-based workflows
- Full backend stack: Node.js, Express.js, REST APIs, JWT auth — qualifies for bonus consideration
- AI integration experience with Gemini API and AI Agents
- Portfolio: ben-builds-it.vercel.app
