WORKING EXPERIENCE

PEOPLE SOLUTION

Humanica Public Company | Dec - 2024 – May 2025

- Processed payroll for multiple clients with 100% accuracy
- Gathered and translated business requirements into system configurations for HR software
- Coordinated with stakeholders to streamline payroll workflows and reduce manual steps

PROJECTS

PERSONAL PROJECT

BigBode AI-Tarot platform

- Designed and built a full-stack AI-powered Tarot reading platform with secure user authentication and session management
- Integrated Google Gemini SDK for dynamic AI-generated content with reliable error handling
- Managed database schema using MySQL + Prisma ORM, ensuring data integrity and query performance

GROUP PROJECT (TEAM OF 5)

4B1K Community concert platform | Project Manager

- Led 5-person team to build a concert tracking platform with artist profiles, event listings, and community forums
- Managed project roadmap, Git workflow, and task management from requirement gathering
- Developed core features using React, Node.js, and MySQL while supporting teammates through code reviews
